

Umsebe Healthcare

COVID-19 Emergency Supply

Umsebe Healthcare

COVID-19 Crisis Emergency Supply

Umsebe Healthcare has over 11 years of experience in importing and distributing medicines and medical devices into Southern Africa.

Umsebe Healthcare is owned and operated by pharmacists and healthcare professionals.

Umsebe Healthcare is a comprehensively-licensed importer and distributor of medicines and medical devices, with a comprehensive portfolio of products to support combat the COVID-19 pandemic in Southern Africa.

We apply strict pharmaceutical quality and safety management standards in all its practices.

Our processes and products meet internationally-recognised standards for medical-use PPE (personal protective equipment), the SABS (South African Bureau of Standards) and NRCS (National Regulator for Compulsory Specifications) requirements in South Africa, and comply to the Medicines Control Act (Act 101/1965) regulated by SAHPRA (South African Health Products Regulatory Authority).

Umsebe Healthcare is also a member of SAMED (South African Medical Technology Industry Association).

- Established in 2009
- More than 11 years experience in medicines and medical devices
- 100% Black women owned
- Level 1 B-BBEE
- CSD Approved Supplier - MAAA0855398
- SAHPRA Medical Device Establishment Registration - 00001135MD

Infrared Thermometer

Fast, Accurate, Non-Contact, Elegant Design

Description	<p>Non-contact; hygienic and safe 1 second test time Result accuracy to 0,1 °C Large condenser cup increases infrared sensing area Clinical data algorithm used for scientific & accurate interpretation of data Fever alarm triggered at >37,5 °C for audible recognition Easy switching between measuring object or body temperature</p>	
Technical Parameters	Measurement Range:	0 °C - 100 °C
	Operating Environment:	16 °C - 35 °C; RH ≤ 85 %; 70 kPa - 106 kPa
	Effective Distance:	1 cm - 5 cm
	Resolution	0,1 °C
	Automatic Shutdown	After 15 seconds of non-use
	Storage Capacity:	20 memory spaces
	Power supply:	30,0 V = 2 x 15 V (AAA) Battery (NOT INCLUDED)
	Service Life:	3 years
Model	LW FT 118	
Colour	White	
Product Performance	CE FCC NMPA (China) Medical Device	Tested by an International Laboratory Accreditation Co-operation (ILAC) certified laboratory
Certifications	CE Conformity Testing	EN 61326-1;2013
	FCC certification:	47 CFR FCC Part 15 Subpart B
Packaging	1 piece/unit: 38 x 35 x 152 mm; approx. 90 g 50 units per shipper: 435 x 355 x 215 mm	

Surgical Masks

Disposable 3 ply non-woven surgical face mask

Bacterial Filtration Efficiency (BFE %): >98%

Splash Resistant

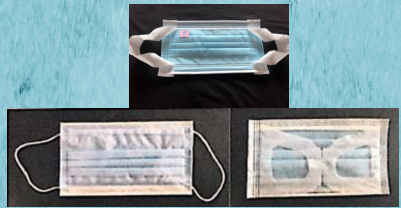

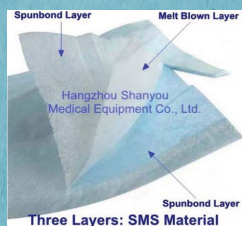

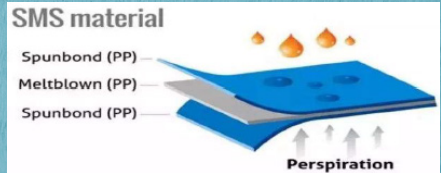

Anti-bacterial / Anti-flu / Anti-Haze-Smoke-Mist
/ Anti-dust / Anti-Pollen / Anti-droplet

Zero Fiberglass & Zero Latex

Easy to breathe, comfortable to wear

Healthcare Worker Masks

Description	The single use non-sterile surgical face mask consists of a mask body, a nose clip, and mask straps in 3 different ear-loop styles.	
Model	The mask body is made up of three layers, the inner and outer layers are spun bond non-woven fabrics, and the middle layer is melt-blown filter material. The nose clip is made of polypropylene (PP) wrapped galvanized iron wire.	 
Colour	Specification: 175mm x 95mm	
Colour	Blue-White	
Product Performance	YY 0469-2011 EN 14683:2019 (Type IIR)	Tested by an International Laboratory Accreditation Co-operation (ILAC) certified laboratory
Certifications	CE Declaration of Conformity ISO certification:	EN 14683: 2019 EN ISO 13485: 2016
Packaging	50 pieces/carton box; 50 cartons per shipper (2500 pieces) Shipping Ctn size: 51 x 41 x 47cm	

Face Filtering Piece Masks FFP2

Particulate Filtration $\geq 94\%$ ($0,3 \mu$ particle size)

Close fit to the face, with reduced side leakage

Easy to breathe, comfortable to wear

Adjustable soft nose clip, fits the bridge of the nose and prevents fogging of glasses

Description	The single use, non-sterile face filtering piece half mask consists of a non-collapsing mask body, an adjustable nose clip, and ear-loop design straps for close fitting closure against face.	
Model	Brand: WORK Model: SY95-1	
Colour	White	
Product Performance	EN 149:2001 + A1:2009	
Certifications	CE ISO certification:	EN ISO 13485: 2016
Packaging	25 pieces/carton box; 40 cartons per shipper (1000 pieces) Shipping Ctn size: 64 x 41 x 45cm	

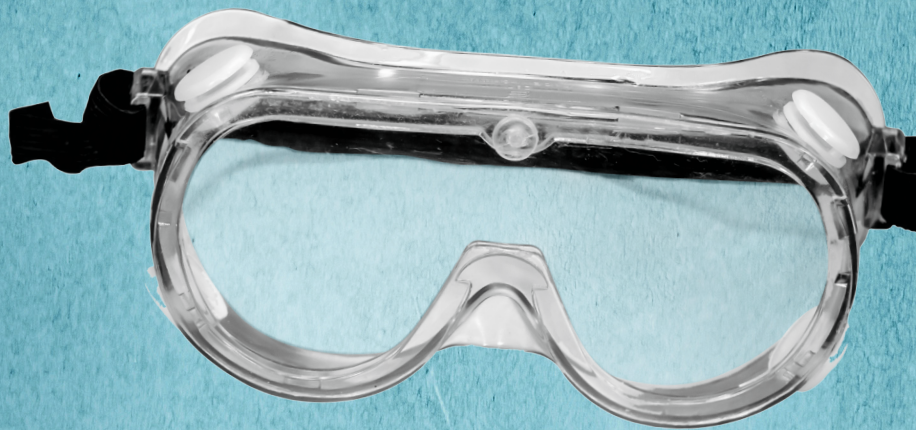

Isolation Eye Cover (Goggles)

For use in medical institutions for eye protection during patient examination, inhibiting the direct transfer of body fluid and blood splashes

Non-Fogging

Non-Sterile, Single-Use

Description	Consists of a clear, protective eye cover, foam strip and fixing device made of polymer materials. Non-sterile, single use	
Model	Model: Leye_1	
Colour	Clear with adjustable elastic band	
Product Performance	EN 166:2001	
Certifications	CE	
Packaging	200 pieces per shipper 95 x 36 x 46 cm Shipper	

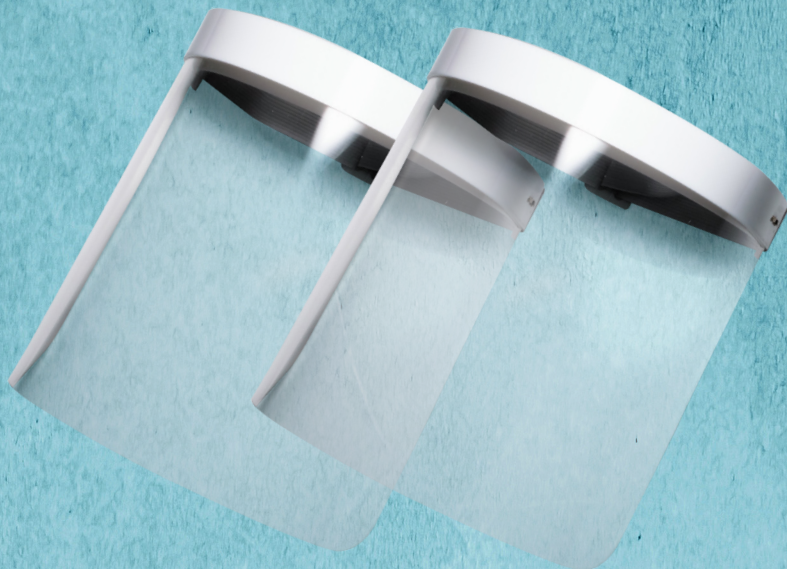

CE

Isolation Face Shield

For use in medical institutions for protection during patient examination, inhibiting the direct transfer of body fluid and blood splashes

Non-Sterile, Single-Use

Description	Consists of a clear, protective cover, foam strip and fixing device made of polymer materials. Non-sterile, single use	
Model	Model: Leye_M5	
Colour	Clear, with white head fixture	
Product Performance	EN 166:2001	
Certifications	CE	
Packaging	20 pieces per shipper	

Warning:
Use only as a face shield
to prevent fluid splashing
